Editors-in-Chief:

David T. Curiel (USA), Sham S. Kakar (USA), Fumikazu Kotsuji (Japan) and Stefano Palomba (Italy)

***Journal of Ovarian Research* aims to provide a forum for high-quality basic and clinical research on ovarian function, abnormalities, and cancer.**

The journal focuses on research that provides new insights into ovarian functions as well as prevention and treatment of diseases afflicting the organ. Topical areas include, but are not restricted to: ovary development, hormone secretion and regulation; follicle growth and ovulation; infertility and polycystic ovarian syndrome; regulation of pituitary and other biological functions by ovarian hormones; ovarian cancer, its prevention, diagnosis and treatment; drug development and screening; role of stem cells in ovary development and functions.

The journal considers the following article types: research articles, brief communications, case reports and reviews. For further details, see www.ovarianresearch.com/info/about/.

Reasons for publishing in *Journal of Ovarian Research*:

- All articles published in the journal are open access; universally accessible online without charge.
- High visibility for your work - anyone with Internet access can read your article, free of charge.
- Included in PubMed - making your work easy to find, read and cite.
- Articles are published immediately upon acceptance.
- Authors retain the copyright of their articles.
- Electronic submission and peer-review makes the whole process of publishing your article simple and efficient.
- Publishing online means unlimited space for figures, extensive datasets and video footage.
- Professional formatting meets the standards expected by researchers.
